

# Electron Accelerator R&D for the Energy Frontier

## Monday, 15 May 2006

**ANAD - Salle 101 (15:30 - 18:30)**

time	[id] title	presenter
15:30	[27] Status of the work at TUE	Dr BRUSSAARD, Seth
15:55	[28] Pre-formed channels for laser-plasma accelerators	Dr LOPES, Nelson
16:20	[29] Demonstration of the generation of GeV electron beams from a plasma accelerator driven in a capillary discharge waveguide	Dr HOOKER, Simon
16:45	break	
17:10	[31] Scalings for multi-GeV laser-plasma accelerators and recent progresses in numerical modeling	Dr SILVA, Luis
17:35	[32] Status of the ALPHA-X project	Dr JAROSZYNSKI, Dino
18:00	[33] Preparation of a database on laser-plasma acceleration	Dr CROS, Brigitte
