

EUDET

Summary and Outlook

Joachim Mnich

EUDET Annual Meeting

MPI Munich

October 20, 2006

Scientific Status

- **Many, many good & important results shown at the meeting**
I refrain from showing a random collection of plots

- **General impression:**
 - **EUDET is in good shape**
 - **no major problem in 2006 identified yet**
 - **BUT we were prudent and designed EUDET reasonably**
 - **not too many, too detailed milestones/deliverables**
 - **and not at an too early stage**

- **we should be able to produce a respectable Annual Report**

- **Reminder:**
 - **start writing your EUDET memo or report now! (until Nov. 22nd)**
 - **start discussing with your administration now!**

Financial Status

- **We spent less ($\approx 2/3$) of what was foreseen**
 - **difficulties to hire personnel**
 - **but this is not a disaster!**

- **Pay your invoices in 2006 and continue to spend your money as foreseen**

- **Be aware of:**
 - **depreciation**
 - **no internal invoicing between partners**
 - **if necessary/reasonable we can deviate from original plans (Annex 1) but needs to be discussed and prepared in advance**

Next Steps

- **Annual Report**
Deadline: February 15th, 2007

- **Management Finance Report**

- **Next transfer of EU money (2nd Instalment)**
 - **we'll make internal survey of personnel and expenditures**
 - **report to Brussels (details to be determined)**
 - **do not expect any fresh money before mid 2007**

- **Review of EUDET status:**
 - **mid-term review April/May 2007**
 - **1 day video meeting**

- **Annual Meeting 2007**
 - **2.5 days duration**
 - **2nd half of October (± 1 week)**
 - **place to be determined**

Acknowledgements

- **Many thanks to all of you for coming to Munich and participating in our first Annual Meeting Meeting (approximately 100 participants)**
- **Many thanks to our Advisory Board for following the meeting**
- **As well as to Gerburg Larsen (EU) for her visit & presentation**
- **For the organisation of the workshop many thanks to Ariane Frey and Hans-Günther Moser**

See you all at our Annual Workshop in 2007!
